## PROFILE

---

I am a quality assurance person highly experienced in software testing. I have managed to get the software to pass due diligence using various methods so that no bugs are detected in production. Accustomed to generating Test Case scenarios and locating faults in the website and API.

## WORK EXPERIENCES

---

### **PLN Icon Plus | September 2023 - December 2023**

*Quality Assurance Engineer - Internship*

I interned as a quality assurance engineer, Creating various automated system tests using tools such as Cypress. What I do:
